SMART
FIRE & SAFETY PRIVATE LIMITED
We serve to save

Since 2019, SMART FIRE became supplier of safety equipment, we supply personal protective equipments, fire safety equipments, hand tools & power tools, scaffolding material and trust to our beloved customers.

WHAT WE DO

Sales

Our Committed and Experiences **SMART FIRE** are sincerely trained to response quickly, efficient and to be cost effective to our customers' need, provides comprehensive range of fire fighting system including all type of material related to fire safety. Along with we supply fire safety equipments to all kind of projects which includes Commercial Projects, Residential Projects, industrial Projects etc.

Installation

We also install Fire Fighting Systems in all kind of projects as already shown above. Along with we work in Servicing the whole system and we execute AMC projects and our experienced team will refill fire extinguishers and will test other equipments used in fire fighting projects.

Why us ?

- Trusted place to grow your business
- Affordable Price And Quality Products
- Delivery as per commitment
- Experienced team for installation
- Experienced team of Sales Executive
- You will get solution for your problems here
- Can give suggestions like a Family Member

Carbon Dioxide Fire Extinguisher type portable & trolley mounted

Carbon Dioxide fire extinguishers are ideal for use on Class B fire risks.

Available Capacities : 2kg, 3kg and 4.5 kg standard

- ISI Marked
- 1 year warranty
- Fully refillable
- Controlled discharge
- Safe for use on live electrical equipment
- Squeeze grip operation
- Supplied with wall bracket
- Full range of spare parts are available

Automatic Modular Type Fire Extinguishers

ABC POWDER, BC POWDER, CLEAN AGENT
CAPACITY : 2KG, 5KG, 10 KG

Fire Tendors

Fire trucks are a necessary equipment to ensure rapid reach to the site where fire has started to douse the same and also to prevent further spreading. A water tender, also known as a tanker in some regions, is a specialized firefighting apparatus designed for these fire tenders are useful for large infrastructures and for infrastructures in remote areas.

Medium Fire Tender

Mini Fire Tender

Water Tender X Type

Mobile Foam Trolley Unit

- Mobile Foam trolley unit with corrosion resistant FRP tank and stainless steel tank.
- Light weight and durable for use in rugged conditions.
- First aid and rapid deployment high risk areas.
- Easy access in narrow passages where fixed piping and fire vehicles are inaccessible.
- Tank mounted on steel structure with wheels for easy mobility.
- Available in all tank capacities.
- Aluminium alloy low expansion foam branch 225 Lpm or 450 Lpm along with 3% or 6% fixed inline foam inductor made of aluminium alloy is supplied along with it as standard equipments.
- Provision of Storage of 2 nos of 15 mtrs. hose along with couplings.
- Variable inline inductor medium expansion foam generator and fire hoses are optionally supplied.
- Mobile foam trolley units are also available with engine driven pumps of required capacities.

Foam Equipments

- Available all type of Foam branches FB2XM, FB5X, FB10X, FB20X
- Designed to perform well in all types of foam.
- Self inducing version with 3% and 6% fixed induction rate along with pick up tube and dip pipe.
- Control valve optionally available.
- Made of Aluminium.

Inline Inductors

- Inline inductors are available in fixed and variable options.
- Available in 225LPM and 450 LPM.
- Portable and light weight.
- Made of Aluminium.

Boom Barrier

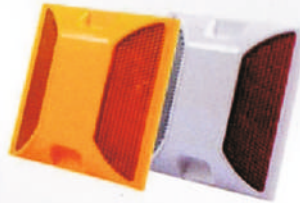

- High torque motor: Long lasting motor that generates up to 600 nm torque.
- Smooth operation : No bounce/jerk of boom at end positions.
- Better visibility: white aluminium boom bar with reflective strips and RAL 2005 powder coated housing.
- IP54 protection: Control unit is IP - protected making it dust and water resistant.
- Optical beam sensor: Safety device to detect presence of vehicles and reversal of boom movement.
- Access control operation: boom barrier operated through push button switch and can also be operated through access control system.
- Manual Operation in case of power failure: Barrier can be raised or lowered by releasing the boom lock with key type mechanism.
- Applications: Tolls, parking areas, industries, private & govt. assets, residential areas, airports etc.
